

LIMO DRIVER SIGN

The LimoDriverSign™ is a newly designed sign that takes portability and flexibility to a new level. The on-board programming allows for quicker programming than signs that need a remote or computer. The only thing needed in addition to the sign is your FINGER! No computer necessary, and the battery lasts for nearly 6 hours. Do you know a Limousine Driver who could use a sign like this? Can you think of someone who would like to have a gadget not everyone else has?

The sign includes:

- A cigarette lighter adapter for charging in the car.
- A plug to plug into US outlets (Other plug styles available for quantity orders.)
- All controls are on the sign to allow for quick ON-BOARD programming --NO COMPUTER NECESSARY!!!
- A cable to connect the PC to the sign for easy programming on the computer (software included)
- A handle for holding the sign (seen in the picture). The handle can be removed for easy transportation.
- A lithium battery that will last up to 6 hours with a charge time of only about 3 hours.

Benefits of the LimoDriverSign

- **Programming:** Easily programmable using on-board buttons or after connecting to a computer.
- **Flexibility:** For limo drivers, a moving message sign is smaller and easier to see than many other message systems used by limo drivers.
- **Characters:** Upper and lower case letters, numbers, and many symbols available for your messages.
- **Display:** Red SMD LED Display with 5 x 7 dots per character.
- **Display Area:** 7 ¾" L x 1 ½" W
- **Size & Weight:** The sign with handle weighs less than 10 ounces. It can easily fit into a sports coat pocket. And, the sign is 10 in (l) x 3 in (w) x 1 (h)in size.
- **Resolution:** 7 dots (H) x 400 dots (W)
